**THE COMPLETE
AUTOMOTIVE / RV / MOTORCYCLE
CORROSION CONTROL SYSTEM**

BULLFROG: AUTOMOTIVE

THE BULLFROG SYSTEM

Fighting rust and corrosion on your valuable cars, trucks, RVs, bikes, motorcycles, tools, etc. is a never-ending battle. BullFrog offers a real breakthrough in technology that has been perfected and proven in industrial and military applications around the world. BullFrog offers a range of products to protect your investments and help them perform at their optimal level. BullFrog products are safe for you and the environment. Although each BullFrog product was created to perform a different task, each employs the same Vapor phase Corrosion Inhibitor (VpCI®) technology that has been proven to safely and effectively remove and control the ravages of rust and corrosion.

PRODUCTS

TOOL WIPES

BullFrog Tool Wipes are revolutionary wipes which remove surface rust, grease, oil, and grime. Cleans and protects while leaving behind a long lasting VpCI® protective barrier. Perfect for tools, machinery, parts, or any metal surface.

RUST REMOVER WITH RUST BLOCKER

Finally, a Rust Remover that is safe to use, safe for the environment, and it really works! Cleans up with water . . . plus, VpCIs protect the metals from flash rusting . . . tools, cars, trucks, RVs, farm equipment, bikes, metal furniture, and garden equipment.

RUST BLOCKER

Prevents rust before it starts. Sprayed on, it forms an invisible "VpCI® Molecular Umbrella" that seals exposed metal surfaces such as latches, hinges, trailers, farm equipment, outdoor furniture, garden equipment, and fences against rust.

HIGH-SHINE WAX & RUST BLOCKER

The one step paste wax that is the hardest working and brightest shining paste wax on the market. VpCIs will seal and protect the metal surfaces from corrosion. Protects against UV rays and fiberglass oxidation and is great for clear coat finishes . . . cars, trucks, RVs, motorcycles, and boats.

CLEANER DEGREASER WITH RUST BLOCKER

The hardest working cleaner/degreaser you can get, plus VpCIs protect metal surfaces from flash rust and corrosion. Biodegradable and phosphate free . . . Cleans engine parts, motorcycles, farm equipment, power tools, hand tools, garden equipment, and grills.

FAST WAX WITH RUST BLOCKER

Shine and protect your car, truck, ATV, RV, or cycle in just minutes. Easy to use; and the only spray wax that actively blocks rust and corrosion.

ELECTRONIC CLEANER & CORROSION BLOCKER

Remove the dirt, grit, and corrosion that is silently attacking the performance and reliability of every electronic device, every electrical system that you own! Preferred by the U.S. Navy and repair technicians around the world. Clean and Protect electrical connections in cars, trailers, equipment, outdoor lights, phones, remotes, TVs, VCRs, even light bulbs.

RUST BLOCKER CUP

Stop rust for a year in any enclosed space up to 11 cubic feet. Use in tool chests, gun cabinets and electronic cabinets. Used by the world's largest companies to protect their critical assets from rust and corrosion.

LUBRICANT & RUST BLOCKER

Stops everything from squeaking and sticking in machinery, hinges, equipment, locks, hedge clippers, tools, nuts/ bolts, and any moving part. Protects against rust and corrosion for up to a full year. No CFCs or 111 Trichlor.

RUST BLOCKER STRIPS

Stops rust and corrosion just like the cups when placed in small spaces (1 cubic foot). Protect your tool box, fishing tackle box, electronic equipment, jewelry, coins, and silver from corrosion and tarnish.

BULL FROG ADDITIVE SYSTEMS

When you store an engine for more than a month you need extra protection. Bull Frog provides the extra protection against rust in all of the air pockets in the engine, radiator system and fuel system. VpCI's guard against rust and corrosion above and below the liquid levels.

RUST BLOCKER SHIELDS

Protect larger enclosed spaces from rust and corrosion. Hang it in a gun safe, storage locker, trunks, closets or engine compartments. Hang it up in a second and relax for a year.

RUSTORER

When applied on rusty or poorly prepared metal surfaces, it quickly penetrates to bare metal to prevent further corrosion. Rustorer converts existing rust into a passive hydrophobic layer, which can be used as a primer before top coating. Excellent for severe conditions and exposure to sea-water.

BULLFROG COVERS PROTECT ALL YEAR LONG

BULLFROG COCOONS: MOTORCYCLE AND CAR

BullFrog Motorcycle and Car Cocoons stop the ravages of rust and corrosion on winter-stored vehicles. The cocoons are made from woven polyethylene and a high-density extrusion laminated coating. This multiple-layered protective fabric also features a non-woven, softened inside layer. It is designed to be a high strength, tear resistant fabric that seals out dust, dirt, snow, moisture, and dripping water. The outside reflective silver surface has double UV protection (up to 5 years in sunny and hot climates) making it ideal for outdoor storage. The Cocoons are fully reusable, 100% recyclable, and non-toxic.

But, what's most important is what happens on the inside. Unlike other standard covers, BullFrog Motorcycle and Car Cocoons are impregnated with the patented Cortec® Vapor phase Corrosion Inhibitor technology (VpCI®). The VpCIs form a "Molecular Umbrella" of electrochemical inhibitors that migrate to all the metal surfaces of a vehicle including crevices, cracks, and recessed areas. After storage VpCIs don't need to be removed with cleaning or degreasing chemicals. That means the car or motorcycle is ready to go, right out of the Cocoon. BullFrog Motorcycle Cocoons are available in three sizes: medium, large, and touring (big enough to fit the largest Harley Davidsons). Auto Covers are made in custom sizes and are also available for ATV and Snow Mobiles

Cortec® VpCIs bond with metal surfaces to form a protective 'Molecular Umbrella,' sealing out air and moisture that cause rust and corrosion.
